As regards documents requested to international students about their family economic condition, PEC does not replace the “registered post with return receipt”, since they must be legalized and sent in original.

- **Applications** must be submitted by the deadlines specified under paragraph "When to apply".

4. How to apply if you are an international student

You can fill in the benefits application form exclusively on line on the website www.er-go.it, or at the CAF (Tax Assistance Centres) recognised by ER.GO (complete list on the website www.er-go.it).

In order to delegate the CAF to fill out the benefits application, students must pay attention to the instructions in the On line Services Suite.

You can exclusively access the online application by using SPID digital identity, the electronic identity card (CIE) or the National service card (CNS).

It is mandatory to apply for a digital identity (SPID, CIE or CNS) to access the online services for the students who:

- have an Italian identity document (identity card, driving licence or passport);
- are resident in Italy (if you have a residency in Italy you can ask for an identity card and therefore, for a SPID).

Students, who do not have a residency in Italy, can access online application by using credentials issued by University.

Students, who access the online application using University credentials even if they meet the requirements to request a digital identity (SPID, CIE, or CNS), will undergo controls and the possible eligibility for/assignation of benefits will be suspended in order to end the identification procedures.

To apply for benefits there is no need to enrol in advance at University, Higher Institutes for Arts and Music, and San Pellegrino School for Interpreter Cultural Mediators in Rimini and CIELS Bologna.

Students, to be eligible to benefits, must in any case enrol at University within the deadlines stated in the General Rules of the Announcements, article 13; otherwise the assigned benefits will be revoked.

The online application includes a first section dedicated to PERSONAL DATA and a second section dedicated to the acquisition of ECONOMIC DATA; only after completing and confirming the first and second sections, it will be possible to get access to the APPLICATION FORM for requesting benefits. Once the application has been completed, the data entered must be confirmed. Once the application is confirmed:

A) students who do not use the CAFs to apply:

A.1) if they have filled it out using their digital identity (SPID, CIE or CNS), the procedure is completed and the application is automatically confirmed;

A.2) if they have filled it in using the credentials issued by the University:

- if they have specified a PEC (certified electronic mail) address in the online application, they will receive an email from ER.GO, containing the confirmed application form. In order to complete the application process, it is compulsory to reply to this email using the same PEC address indicated in the online application, within the deadlines;
- if they did not specify a PEC (certified electronic mail) address in the online application, they will receive an SMS (only applicants, who didn't specify a mobile number, will receive an e-mail), containing a personal PIN code, which must be entered within the deadlines in the confirmed online application, using the same access credentials used to apply online.

B) Students, who use CAF recognised by ER.GO to apply for benefits, will receive an email from ER.GO to their own email address (specified in the application form) with their personal PIN CODE. In order to fill out the benefits application form, it is compulsory to follow carefully all the instructions given in the email, to fill in the personal PIN CODE, absolutely within the deadlines.

The filled-out application form, with its PIN CODE and regularly registered, can be viewed and downloaded directly in DOSSIER UTENTE by the student himself/herself, keeping it in a special data storage media, which guarantees its integrity and inviolability.

ATTENTION! ER.GO acquires the applications for the no tax area/partial fee exemption for the Universities of Bologna, Parma, Modena and Reggio Emilia, as follows: 1. for the Universities of Bologna and Parma it is necessary to confirm only the PERSONAL DATA and ECONOMIC DATA sections; 2. for the Universities of Modena and Reggio Emilia, it is necessary to confirm the PERSONAL DATA and ECONOMIC DATA sections and fill in application form for the no tax area / partial fee exemption.

Regarding the education achievement requirements, for students enrolling at the Universities, in years subsequent to the first, the credits obtained, according to the University archives, will be stated in the on-line application form, as recorded within 10/08/2022.

Students, however, have the chance to add any more credits obtained within 10/08/2022, if those credits haven't been recorded by the University yet (e.g. ERASMUS + Programme exams). They have just to follow the directions suggested by the on-line application form.

The information about credits will be sent at the same time to the Universities for the necessary checks.

Before applying, it is advisable to check your own electronic exam transcripts, in order to view all the exams and didactic works passed and consequently recorded by 10/08/2022, as they are relevant with regards to the education achievement required to apply for benefits.

For the A.Y. **2022/2023**, the Regional Authority for the Right to Higher Education may provide particular easier procedures to get access to benefits, concerning the submission of the family economic conditions documentation by students of Ukrainian nationality and residents in Ukraine, taking into account the conflict underway.

To compete for the A.Y. 2022/2023 benefits, students, referred to in these paragraphs, must submit the documentation about income and assets abroad, referred to the year 2021, complete, translated and legalized, uploading it in the **DOSSIER UTENTE within the deadlines for the completing of the application, provided for by art. 14 of the General Rules, under penalty of being ineligible for benefits.**

It will be within Er.Go's power, during the academic year, to ask for the original paper documents, submitted through DOSSIER UTENTE, for check purposes.

Please, note that even students, who complete the benefit application in an ER.GO-affiliated CAF, are required to submit the complete documents about income and assets abroad, translated and legalized, uploading them in the DOSSIER UTENTE within the deadlines indicated at the following art.5, under penalty of being ineligible for benefits.

The documentation to be submitted is the one specified in the following paragraphs 4.1 and 4.2 below.

4.1 Documentation required to international students from Non-EU countries.

International students, coming from Non-EU countries, must provide the complete documentation about economic and financial conditions, issued by the competent authorities for the territory, in which the incomes were produced and where the assets are owned. The documents must be translated into Italian and legalized by the Italian diplomatic authorities competent for that territory or, where applicable, apostilled in accordance with the current regulations.

In case of countries where there are particular difficulties in issuing the certification attested by the local Italian Embassy, the documentation can be replaced by a certificate in Italian issued by the Embassy or by a Consulate in Italy of the country of origin, legalized by the Prefecture office competent for the territory.

For information on how to translate and legalize international documents, consult the website of the Ministry of Foreign Affairs at this address: <https://urlly.it/3npqv>.

In any case, the documentation must attest:

a) the composition of the family unit, a certificate specifying the composition of the family to which the students belong. For the composition of the family, the rules provided for by the ISEE regulations for benefits of the Right to Higher Education (see art.7 General Rules) are valid.

- **Special situations:**

Family status with only one parent:

- **in case of divorce:** it is required the divorce decree or a document of the court, if the separation is still in progress;
- **in case of death:** it is needed a death certificate, if it has not been already provided to Er. Go in the previous academic years;
- **the student has not been legally recognized by his/her father:** it is necessary the student's birth certificate;
- **a parent is untraceable:** it is required the certification attesting the parent's unavailability, issued by the competent authority;
- **presence of a guardian in the family status certificate:** it is necessary to provide a deed of appointment of the guardian issued by the competent authorities;

The student is an orphan of both parents: it is necessary to submit the death certificates of both parents (if not already provided to Er.Go in the previous academic years).

Presence in the family status of married older brothers/sisters: the marriage certificate must be submitted or the brother'/sister's marital status must be specified in the family composition certificate;

Presence in the family status of older siblings not living with the family of origin: it is necessary to submit the residence certificate of the non-cohabiting brother/sister or this should be specified in the certificate of the family composition.

- b) the working activity carried out in 2021 by each family member, including all siblings of legal age. In cases where some members do not carry out any activity, the status of not working or unemployment and the amount of any unemployment benefit or similar received must be specified in the documentation;
- c) the period of performance of the work activity of each member (specifying whether it is a period of less than or more than six months during 2021);
- d) the income amount earned in the year 2021: certification, issued by the public administration competent in fiscal management, attesting the total gross income (taxes included) from work or pension received by each adult member of the family in the calendar year 2021.

- **Special situations:**

If you do not have the above-mentioned certificate, you can submit one of the following documents:

- Certificate issued by the employer attesting the salary received in the calendar year 2021 (from January to December) including taxes;
- Last paycheck (December 2021) only if it attests the total income received in the year 2021;
- All 12 monthly payslips attesting the income received in the calendar year 2021, if the total income is not specified in the last paycheck;

e) Buildings: certification of all the buildings owned on December 31st 2021 by each family member, attesting the building surface area in square meters.

In particular:

Residential house: if owned: a certificate of ownership, attesting the building surface area, is required.

In all other cases (lease, free use agreement, etc.) it is necessary to attach a specific declaration, issued by the competent authority, attesting that no member of the family unit is owner of properties.

Other buildings: it is necessary to submit the relevant ownership certificates;

f) the amount of any residual mortgage loan in effect at the time December 31st, 2021 on the house and/or on other properties;

g) the assets amount for each individual member of the family unit owned on December 31st, 2021;

h) any document certifying the student's disability or handicap.

All the income/assets local values must be expressed in Euro, on the basis of the average exchange rate of foreign currencies for the year 2021, as provided for by institutional sources.

International students from Non-EU countries, which are "particularly poor", (Table A, General Rules), must provide a certification of the Italian Representation in the country of origin, attesting that the student does not belong to a family, known as to be of high income and high social level.

4.2 Documentation required to International students from European Union countries

International students from one of the countries of the European Union are considered equal to Italian citizens, also with regard to the rules about the simplification of administrative procedures, and therefore can self-certify their income and assets, declaring in the application:

- the composition of the family unit. For the composition of the family, the rules provided for by the ISEE regulations for benefits of the Right to Higher Education (see art.7 General Rules) are valid.
- the total income received abroad in the year 2021: the income is assessed on the basis of permanent parities and expressed in Euro;
- the assets owned abroad on 31/12/2021: real estates are considered only as buildings, assessed on the basis of the conventional value of € 500.00 per square meter; assets are evaluated on the basis of permanent parities and expressed in Euro.

In order to get started the necessary checks, according to art. 17 of the General Rules, all students are in any case required to submit, by the deadline specified in paragraph 17, the family status certificate and the documentation concerning the self-certified incomes and assets, translated into Italian and, where necessary, legalized or apostilled in accordance with the current regulations.

4.3 Provisions common to international students from EU and Non-EU countries

International students, whose family unit resides and receives income and/or owns assets in Italy, submit the application in the same way settled for Italian students. In case of mixed income and/or assets (part in Italy and part abroad), income and/or assets abroad must be documented within the deadlines and according to the procedures specified above, in paragraph 4. and following, even if included in the DSU declaration of the ISEE certificate.

International students with dual citizenship must apply choosing one of the two citizenships. In case that one of the two citizenships is Italian, this one prevails.

4.4 International students recognized as stateless or holders of international protection (with residence permit for political asylum or subsidiary protection) or of complementary protection (e.g. special protection and special cases)

Students recognized as **stateless or beneficiaries of international protection** (with residence permit for political asylum or subsidiary protection), or of complementary protection (e.g. special protection and special cases), are exempt from submitting declarations issued by embassies or consulates, since only their eventual income and assets in Italy are taken into consideration to evaluate their economic condition. Therefore their economic situation will be evaluated according to the same procedure provided for Italian students.

These students must submit:

- a) a copy of their valid residence permit
- b) a copy of their passport or identity card, or other valid I.D.
- c) ISEE certificate 2022

Students with a residence permit for asylum application, whose procedure to recognise their status as eligible for international protection is still underway. and do not have their residence permit, must submit the documents listed above at points a), b), c). The eventual benefits awarding depends on the status recognition and on the issuing of the corresponding residence permit.

Students whose procedure to renew their residence permit is still underway and do not have it yet, must submit the documents listed above at points a), b), c). Any benefits awarding depends on the status recognition and on the issuing of the corresponding residence permit.

In case of change of the residence permit, as stated in this article 4.4, into a residence permit with a purpose different from the original one, no more within the scope of international or complementary protection, ER.GO reserves the right to evaluate the economical condition, without implementing the regulations about the family unit to refer to, according to art. 7 of the General Rules.

International students must also submit self-certification of domicile and subsequent documentation within the specified deadlines, to be eligible for the "non resident" or "Commuter" scholarship (with the exception of the students referred to in paragraph 4.4 with their family unit not resident in Italy).

7. Scholarships

According to Ministerial Decree no. 1320 dated 17-12-2021, for the academic years 2022/2023 and 2023/2024,

state funding contributes to the coverage of the scholarships from resources of the National Recovery and Resilience Plan (PNRR), as part of the European Union funding “Next Generation EU”.

The resources available for the academic year 2022/2023 will be assigned for the 75% to students enrolled in subsequent years and for the 25% to freshmen, proportionally to the number of eligible students in each ranking list.

7.1 Scholarship amount

The amount of scholarship varies according to the economic conditions of the family unit and to the condition of NON-RESIDENT STUDENT, COMMUTER STUDENT AND RESIDENT STUDENT:

ISEE value brackets	non-resident Students	Commuters	Resident Students
Up to € 16.223,41	€ 6.157,74	€ 3.598,51	€ 2.481,75
From € 16.223,42 to € 17.845,75	€ 4.002,53	€ 2.339,03	€ 1.613,14

From € 20.264,79 to € 24.335,11	€ 3.078,87	€ 1.799,26	€ 1.240,88

The scholarship for the students enrolled in the “further semester” beyond the Course time span is equal to the 50% of the amounts above.

7.2 Scholarship amount – increases

In the case of ISEE up to € 12,167.56, the value of the scholarship is increased by 15%.

In the case of female students enrolled in S.T.E.M University courses (Science, Technology, Engineering and Mathematics), indicated in the Appendix of the Announcement, the value of the scholarship is increased by 20%.

The possible increases are not cumulative with each other. If both conditions are met, the most favourable will be implemented.

The increases are paid with the scholarship last instalment.

7.3 Scholarship amount – converted into prepaid credit for catering service

Students can apply for converting a part of the scholarship into credit for the catering service. In this case, ER.GO will add a 50% extra amount.

Therefore, the scholarship is split into four different amounts, which can be converted into the catering service, corresponding to four different ER.GO grants:

Scholarship amount converted into catering service	ER.GO contribution	Total amount of prepaid credit for the catering service
€ 200	€ 100	€ 300
€ 400	€ 200	€ 600
€ 500	€ 250	€ 750

To be admitted to courses students will need: **1.** CUS annual card released for free to BAPS assignees; **2.** Medical certificate for non-competitive sport activity: the certificate is issued free of charge (costs to be paid by ER.GO) to the students assignee of BAPS. The visit takes place at the medical centres affiliated with CUS or ER.GO

In case of revocation of accommodation because of the loss of eligibility to the benefits, also the right to the prepaid amount for catering is revoked, regardless of period spent in the accommodation, and the prepaid amount already used for the catering, must be refunded.

In case of giving up to or revocation of the accommodation for serious violations of the Residence Rules, 50% of the prepaid fee is due for access to the catering service. In both cases, the amount exceeding 50% of the prepaid credit, that may have been used, must be reimbursed. In both cases, the amount in money and the supplement for sports activities, referred to in art. 3 of the Scholarship Announcement, are confirmed.

7.5 Scholarship payment

The scholarship is paid in four instalments for first-year students of first cycle degree courses (or second cycle Diplomas of AFAM) and single-cycle Master's degrees and in three instalments for all other students according to the following scheme. The instalments are calculated with reference to the scholarship amount awarded net of any increases which, if due, will be paid in the balance.

Student	Percentage of the assigned scholarship amount provided with the paid instalment			
	First instalment	Second instalment	Third instalment	Fourth instalment
Only first-year students of first cycle degree courses (or second cycle Diplomas of AFAM) and single-cycle Master's degrees	20%	30%	10%	40% (balance and possible payment of increases)
Other students (BAPS included)	50%	10%	40% (balance and possible payment of increases)	-

8. Condition of Non-resident student, Commuter student and Resident student

Non-Resident Students

Students can get scholarship as “**Non-Resident Students**”, if :

They are resident at a distance, from the location of the course attended, that takes more than 90 minutes on public transport (in a municipality not included in either Table 6 or Table 7 of the Announcement) and if they meet one of the following conditions:

1) They are lodging assignee in ER.GO residences for at least 10 months, in the period going from 1st October 2022 to 15th September 2023;

2) They pay for accommodation in the university city attended, (or nearby, provided it is within the municipalities listed in Table 6 or Table 7), using public residential facilities or lodgings owned by private parties or authorities, for at least 10 months within the A.Y. (from 1st October 2022 to 15th September 2023). Students who meet the requirements to be considered economically independent, according to art. 7 paragraph 2 of the General Rules have right to a scholarship of “non-resident student“ amount, regardless of the travel time between the municipality in which they reside and the location of the course and are not subject to the provisions on domicile referred to in the Scholarship announcement.

Students who intend to get the benefits for “Non-Resident Student” must:

- fill in the online form “self-certification of domicile”, after confirming the on line scholarship application form, from 4th July to the last deadline on 15th November 2022, with the following options: **self-certification of domicile completed by 3rd October 2022 (first deadline) will be taken into consideration in the scholarship provisional ranking lists; those filled out from 4th October to 15th November 2022 (second deadline) will instead be included in the scholarship predefined ranking lists;**

- those, who will already have the documents about this paid or free accommodation, according to the rules stated in the Announcement for Scholarships, may attach a scan of these documents to the online self certification of domicile Form.

- Those, who, on the other hand, will not be able to attach the domicile documentation to the online self-certification form, will then have to send by registered post to ER.GO the documentation concerning their domicile address, as specified in the Announcement, by 31st January 2023.

As regards stateless students, with international or complementary protection as defined by art. 2.3.4 of the General Rules of the Announcement, whose family unit is not resident in Italy, the amount of their scholarship is that provided for non-residential students, regardless of their residence or domicile.

Commuter students

Students can get the scholarship as “**Commuters**”, if:

They are resident at a distance, from the location of the course attended, that takes between 45 and 90 minutes on public transport (in a municipality included in Table 7 of the Announcement)

or

though considered “non-resident” because of the distance from the University attended, they live however in a free accommodation in the university site, or nearby, provided it is within the municipalities included in Table 6 or in Table 7 of the Announcement, for at least 10 months of the academic year (from 1st October 2022 to 30th September 2023).

The procedures and deadlines for sending the self-certification of domicile and relative documentation, required for “Non-resident Students” must be respected also in this latter case.

Resident Students

Students can get the scholarship as “Resident Students”, if:

As far as their eligibility to scholarship is concerned, students are considered as residential students, if they have their domicile in a lodging owned by themselves or by one of their parents, if present in the student's family unit or in the ISEE requested in order to apply for Higher Education Benefits.

Self-certification of domicile

Students who applied to get a scholarship as “Non-resident” or “Commuters” must fill in the online the self-certification of domicile form, on the website www.er-go.it , after having filled in and confirmed the scholarship application form from 4th July 2021 by the last deadline on 15th November 2022, with the following options: self-certification of domicile completed by 3rd October 2022 (first deadline) will be taken into consideration in the scholarship provisional ranking lists; those filled out from 4th October to 15th November 2022 (second deadline) will instead be included in the scholarship predefined ranking lists

The self-certification of domicile temporarily replaces the documents concerning the paid or free accommodation (such as the contract relative to the self-certified domicile) which have to be sent, exclusively, by registered post with return receipt (postmark date), to:

- for the Bologna and Romagna sites, Via Schiavonia 3/a – 40121 Bologna
- for the Ferrara site, c/o Residenza Santa Lucia, Via Ariosto 35 – 44121 Ferrara
- for the Modena and Reggio Emilia sites, Via Vignolese 671/1 – 41125 Modena
- for the Parma site, Vicolo Grossardi 4 – 43125 Parma

or by Certified Electronic Mail (PEC) to the address info@postacert.er-go.it, or by “DOSSIER UTENTE”, in the area “Documents to send to ER.GO” (documenti da inviare/inviati all'Azienda) by 31st January 2022.

Students who have already attached their complete documentation to the online self-certification of domicile by 15th November 2022, are not required to send it by post again.

It will be within Er.Go’s power, to do sample checks on the complete and correct documentation about "upon payment domicile", in order to verify the real payment of the due lease/rent, asking for the suitable receipts documents (e.g. receipts, copies of payment arrangements, etc...)

Documentation about domicile

ACCOMMODATION UPON PAYMENT:

- 1) If the student is the holder of a lease agreement, he/she must provide a copy of the agreement;
- 2) If the student lives in a place, where he/she is not the holder of a lease agreement, he/she must provide, besides a copy of the original agreement, a regularly registered sublease (*subentro*):

The agreement must be officially registered, hence it is also necessary to attach the receipt of payment of the registration tax for this academic year (Forms MOD. F24 ELIDE, MOD. RLI 12 or other forms, as provided by the Revenue Agency). In case of the flat rate tax option (*cedolare secca*), students will have to submit the documentation issued by the Revenue Agency proving that the option is still valid for the current year.

If the agreement sent by 31st January 2023 expires after that date without covering the 10-month period, the student must provide the renewal documentation or a new registered lease.

3) Students enrolled in subsequent years, who confirm the domicile documented to ER.GO in the previous academic years, are exempt from submitting again a copy of the same contract, but they must prove its renewal submitting the copy of its registration at the Revenue Agency, valid for the a.y. 2022/2023, which attests the contract extension (Form MOD. F24 ELIDE, Form MOD. RLI 12 or other form, as provided for by the Revenue Agency).

4) Students having their domicile in residences, hostels, B&B, etc. must submit the copy of their online booking confirmation and the receipt of the online payment; or a statement of the owner declaring their check-in date and check-out date (staying of at least 10 months in period 1st October 2022 – 30th September 2023) and the monthly rent.

5) **Special provisions in case of multi-year contract registered with the option “Cedolare secca” (flat tax), already sent to ER.GO in the previous years**

Students enrolled in subsequent years having a multi-year contract registered with the option “Cedolare secca” (flat tax), already sent to ER.GO in the previous years and still valid, must not submit the self-certification of domicile nor send the documentation according to the Scholarship Announcement, if they confirm the same domicile for the a.y. 2022/2023. They must in any case confirm this, communicating it on line. On the contrary, in case of expired contract or of domicile change for the a.y. 2022/2023, must submit the self-certification of domicile and provide the documents according to the Scholarship Announcement.

ACCOMMODATION FOR FREE

1) If the student lives free of charges in a flat, a registered gratuitous commodatum agreement must be provided.

2) In case that the provided gratuitous commodatum agreement for the A. Y. 2021/2022 has expired, the student must provide a document written by the flat's owner with attached a blueprint of the latter's ID, certifying the student's stay in that flat during the A.Y. 2021/2022 and specifying the beginning and end date of student's stay.

3) In case that the provided gratuitous commodatum agreement for the A. Y. 2021/2022 is an open-ended contract or a contract lasting for the whole student's period of studying, the student must provide a document written by the flat's owner with attached a blueprint of the latter's ID, certifying the student's stay in that flat during the A. Y. 2022/2023 and specifying the beginning and end date of student's stay.

Note:

In order to avoid omissions or lacking data, it is advisable to use ER.GO set of forms available in the “MODULISTICA” of the DOSSIER UTENTE.

In full respect of laws and rules in force, Er-go reserves its rights to accept other certified documentation.

For any doubts or questions, please see the Announcement or contact our on line service SCRIVICI!.

Also, you will find it herein annexed a “Glossary” of technical terminology about Lease agreements.

9. Economic requirements

The economic condition of the student is assessed considering ISEE (Index of the Economic Condition) and ISPE (Index of Property Condition), two indexes measured according to the composition of the family, the incomes and assets owned by the family. The regulation in force about ISEE introduces a specific ISEE as regards services connected with the right to higher education. Usually, in case of parents living with the applying student, the ISEE, issued for services connected to the right to university studies, corresponds with the ORDINARY ISEE, in this case, the ISEE certificate (Attestazione) must specify that it is applied to the supporting services of the right to higher education on behalf of the student concerned. In case of particular situations, please see the General Rules of the Announcement for the academic year 2022/2023 and the Guide to ISEE for the academic year 2022/2032.

Independent student

In case of parents not living with the student applying for an ISEE for services connected to the right to higher education, the applying student is member of the parent's family unit, except in case both the following requirements occur.

a) Official residence outside the family home for at least two years before the date of submission of the ISEE certificate, in a housing not belonging to a member of the native family;

b) Earned income or similar of at least € 9.000,00 per year in the last two years, declared by the student in his/her income tax return.

c) If the student is married, or cohabitant under a cohabitation de facto (art. 1 paragraph 36 of Law 76/2016) registered at the city of residence, it will be taken into account the student's new family unit, only if he/she meets the residence requirement (according to letter a) and in case the income requirements (according to letter b) are fully met, also considering the income of the student's spouse or cohabitant under a cohabitation de facto (art. 1 paragraph 36 of Law 76/2016) registered at the city of residence. In this case, to meet the income requirements, the spouse's or cohabitant's income (referred to the two previous years) can be taken into consideration, even if the student at that time was not yet married or cohabitant under a cohabitation de facto (art. 1 paragraph 36 of Law 76/2016) registered at the city of residence.

Rules for spouses are valid also for both parties of same-sex civil union, as provided for by the current regulations (law 20th May 2016, no. 76).

d) Only in case of a student enrolled at PhD courses, the family unit is composed of the student applying for benefits, his/her spouse, under-age children (younger than 18 years old) and adult children, according to the rules provided for by article 3, paragraph 2 and 5, of D.P.C.M. 5 Dec. 2013, no. 159. In this specific case, the ISEE is calculated on the basis of the so called "restricted family unit" and it is provided in a specific section of the ISEE certificate. The applying to benefits student, enrolled at PhD courses, can however reserve the chance to establish a family unit according to the ordinary rules provided for by article 3 of D.P.C.M. 5 Dec. 2013, no. 159. In this case, it is taken into account the "ISEE ORDINARIO" of the ISEE certificate.

In this case the student can be considered as independent student and we will consider only the economic condition of his/her new family unit, and not of his/her native family.

Students not resident with their native family, who do not have both the requirements indicated above, cannot be considered as independent students, but as members of their parents' family unit and must fill in the application form with reference to the ISEE including their native family. To define the student's condition as Resident Student, Non-Resident Student or Commuters, ER.GO will consider the residence of the native family.

10. Academic Achievement requirements

The academic achievement requirements are evaluated on the basis of the very first year of enrolment at the University.

First year students of degree courses and single-cycle master's degree courses

> access the scholarship and get the first and second instalment only on the basis of the economic and equity condition requirements,

> they must meet specific merit requirements to obtain the third and the fourth instalment (balance) and to maintain the assignment of the scholarship and not to return the instalments already received in cash and services. Freshmen without requirement by 30/11/2023 lose the right to reimbursement of the regional tax.

The credits obtained must not be less than:

Type of course	Access requirement for the 1 st and 2 nd instalment of scholarship	Requirement at 28/02/2023 for the 3 rd instalment of scholarship*	Requirement at 10/08/ 2023 for the 4 th instalment of scholarship (balance)	Requirement at 30/11/2023 to confirm the award of the scholarship and to not refund the instalments already received

BONUS

The bonus is an amount of extra credits that can be used to reach the minimum achievement level required to get the benefits of the year in which the student is going to enrol. It has to be required in the online application form.

It can be used also to confirm the scholarship of the year in which the student is enrolled.

If the bonus is not used, it increases as follows:

- At the end of the first year: 5 credits
- At the end of the second year: 12 credits
- At the end of the third year: 15 credits

If the bonus is used, it is not possible to increase it further. Any remaining bonus credits can be used only over subsequent years. Any bonus not used during the first level degree course can be used during the second level degree course. The bonus used in previous academic years can not be counted in subsequent years. If for example a student, enrolling at the second year of a First Cycle Degree or of a Single Cycle Degree and having right to a 5 credits bonus, has achieved 23 credits and uses a 2 credits bonus to reach the required 25 credits, he can use the remaining 3 credits of bonus during the following years. His/her real credits are in any case 23. If, on the contrary, the student uses the bonus for the first time when enrolling at the third year, he/she has right to use 12 credits; if he/she needs only 6 credits, he/she can use the remaining 6 credits during the following years of study.

QUALIFICATIONS

There are special criteria to evaluate academic achievement in case of:

- Qualifications for educational activities after abandonment or forfeiture of studies, or by attending single or master courses.
