<https://servizionline.er-go.it/dossier/mobile>.

All written communications from ER.GO to students (including those related to the loss of requisites for benefits, check procedures, etc.), will be issued on their “Dossier Utente”, which will have official value to all extents and purposes, instead of postal correspondence.

ER.GO certified mail: info@postacert.er-go.it

Certified electronic mail (PEC) allows traceable, secure correspondence to be exchanged with ER.GO.

You need a personal certified electronic mailbox, easy to set up by a simple request on-line - www.postacertificata.gov.it - to send to the company managing the service.

Once you have stated the certified electronic mail address in the on-line application, the PEC completely replaces the “registered post with return receipt”, specified in some parts of the application notices (i.e. sending the rental agreement, etc.), and allows formal replies, documents and correspondence to be received from ER.GO.

As regards documents requested to international students about their family economic condition, PEC does not replace the “registered post with return receipt”, since they must be legalized and sent in original.

For further information, regarding all ER.GO Benefits, please read carefully the General Rules and the Announcements A. Y. 2021/2022 in their whole.

For the AY 2021/2022 there could be changes to the General rules and Competition announcements because of specific measures due to COVID-19 emergency outbreak.

- Educational Achievement

Students enrolled in the first year, unlike for subsequent years, can get access to scholarship only by their economic conditions. All students, in the first and subsequent years, must reach a certain level of achievement over the academic year, in order to maintain the Scholarship and not to pay back the first and second instalment received.

- **Enrolment** at University, Higher Institutes for Arts and Music, San Pellegrino School for Interpreter Cultural Mediators in Misano Adriatico and CIELS Bologna must be made by the deadlines stated in General Rules, article 11, to be eligible to benefits.

- **Applications** must be submitted by the deadlines specified under paragraph “**When to apply**”.

4. How to apply if you are an international student

You can exclusively access the online application by using SPID digital identity, the electronic identity card (CIE) or the National service card (CNS).

It is mandatory to apply for a digital identity (SPID, CIE or CNS) to access the online services for the students who:

- have an Italian identity document (identity card, driving licence or passport);
- are resident in Italy (if you have a residency in Italy you can ask for an identity card and therefore, for a SPID).

Students, who do not have a residency in Italy, can access online application by using credentials issued by University.

Students, who access the online application using University credentials even if they meet the requirements to request a digital identity (SPID, CIE, or CNS), will undergo controls and the possible eligibility for/assignation of benefits will be suspended in order to end the identification procedures.

To apply for benefits there is no need to enrol in advance at University, Higher Institutes for Arts and Music, and San Pellegrino School for Interpreter Cultural Mediators in Misano Adriatico and CIELS Bologna.

Students, to be eligible to benefits, must in any case enrol at University within the deadlines stated in the General Rules of the Announcements, article 11; otherwise the assigned benefits will be revoked.

Regarding the education achievement requirements, for students enrolling in subsequent year at the Universities, the credits obtained, according to the University archives, will be stated in the on-line application form, as recorded within 10/08/2021.

Students, however, have the chance to add any more credits obtained within 10/08/2021, if those credits haven't been recorded by the University yet (e.g. ERASMUS + Programme exams). They have just to follow the directions suggested by the on-line application form.

The information about credits will be sent at the same time to the Universities for the necessary checks.

Before applying, it is advisable to check your own electronic exam transcripts, in order to view all the exams and didactic works passed and consequently recorded by 10/08/2021, as they are relevant with regards to the education achievement required to apply for benefits.

Students can apply only online, on the website www.er-go.it, or at the CAF (Tax Assistance Centres) recognised by ER.GO (see their complete list on the website www.er-go.it: "elenchi CAF").

In order to delegate the CAF to fill out the benefits application, the interested students must pay attention to the instructions in the On line Services Suite.

Students who do not use the CAFs to apply:

- if they have specified a PEC (certified electronic mail) address in the online application, they will receive an email from ER.GO, containing the confirmed application form. In order to complete the application process, it is compulsory to reply to this email using the same PEC address indicated in the online application, within the deadlines set in the following Chapter 5;

- if they did not specify a PEC (certified electronic mail) address in the online application, they will receive an SMS (only applicants, who didn't specify a mobile number, will receive an e-mail), containing a personal PIN code. The application will not be considered finalized until the student enters the PIN, in the online application, using the same credentials he/she used to apply online, within the deadlines set in the following Chapter 5.

Students, who use CAF recognised by ER.GO to apply for benefits, will receive an email from ER.GO to their own email address (specified in the application form) with their personal PIN CODE. In order to fill out the benefits application form, it is compulsory to follow carefully all the instructions given in the email, to fill in the personal PIN CODE. The application form completion and confirmation must be done absolutely within the deadlines, as stated in the following paragraph 5.

The filled-out application form, with its PIN CODE and regularly registered, can be viewed and downloaded directly in DOSSIER UTENTE by the student himself/herself. ER.GO will keep the application form in a special data storage media, which guarantees their integrity and inviolability.

Important suggestions for the filling out of the application:

- a) Please, gather as soon as possible the documents about your family's incomes and assets abroad, as they will be necessary to fill in the economic data section; or, if your family has incomes and assets only in Italy, ask for the new ISEE/2021 certificate for services connected to the right to University Study, as it will take about 15 days to get the registration number from INPS, which is essential to apply online;
- b) before applying, please, check your own electronic exam transcripts, in order to view all the exams and didactic works passed and consequently recorded by 10/08/2021, as they are important for the education achievement useful to apply for benefits;
- c) try to bring forward, as much as possible, the online application for benefits, as the high concentration of connections might slow down access to the site;
- d) to get easily in touch with ER.GO, it is necessarily required to:
 - specify an email address;
 - a mobile phone number with an Italian SIM CARD (essential for receiving the own PIN code, necessary to finalize the application after the online confirmation; a text message information service is also activated for further communications).

In the application form you can also specify a Certified Electronic Mail (PEC) address. Certified electronic mail messages have the same value as registered post with return receipt.

- e) Once the application has been completed, please confirm the data entered. Only then will the application be correctly sent to ER.GO. Upon confirmation, you will receive an email notification of the application being completed and, so you will be able to finalize by PEC or by PIN, as above mentioned.

To compete for the A.Y. 2021/2022 benefits, students, referred to in these paragraphs, must submit the documentation about income and assets abroad, referred to the year 2020, complete, translated and legalized, uploading it in the DOSSIER UTENTE **within the deadlines for the completing of the application, provided for by art. 12 of the General Rules, under penalty of being ineligible for benefits.**

It will be within Er.Go's power, during the academic year, to ask for the original paper documents, submitted through DOSSIER UTENTE, for check purposes.

Please, note that even students, who complete the benefit application in an ER.GO-affiliated CAF, are required to submit the complete documents about income and assets abroad, translated and legalized, uploading them in the DOSSIER UTENTE within the deadlines indicated above, under penalty of being ineligible for benefits.

The documentation to be submitted is the one specified in the following paragraphs 4.1 and 4.2 below.

4.1 Documentation required to international students from Non-EU countries.

International students, coming from Non-EU countries, must provide the complete documentation about economic and financial conditions, issued by the competent authorities for the territory, in which the incomes were produced and where the assets are owned. The documents must be translated into Italian and legalized by the Italian diplomatic authorities competent for that territory or, where applicable, apostilled in accordance with the current regulations.

In case of countries where there are particular difficulties in issuing the certification attested by the local Italian Embassy, the documentation can be replaced by a certificate in Italian issued by the Embassy or by a Consulate in Italy of the country of origin, legalized by the Prefecture office competent for the territory.

For information on how to translate and legalize international documents, consult the website of the Ministry of Foreign Affairs at this address: <https://urlly.it/350y>.

In any case, the documentation must attest:

a) the composition of the family unit, a certificate specifying the composition of the family to which the students belong. For the composition of the family, the rules provided for by the ISEE regulations for benefits of the Right to Higher Education (see art.7 General Rules) are valid.

Special situations

Family status with only one parent:

- **in case of divorce:** it is required the divorce decree or a document of the court, if the separation is still in progress;
- **in case of death:** it is needed a death certificate, if it has not been already provided to Er. Go in the previous academic years;
- **the student has not been legally recognized by his/her father:** it is necessary the student's birth certificate;
- **a parent is untraceable:** it is required the certification attesting the parent's unavailability, issued by the competent authority;
- **presence of a guardian in the family status certificate:** it is necessary to provide a deed of appointment of the guardian issued by the competent authorities;

The student is an orphan of both parents: it is necessary to submit the death certificates of both parents (if not already provided to Er.go in the previous academic years).

Presence in the family status of married older brothers/sisters: the marriage certificate must be submitted or the brother'/sister's marital status must be specified in the family composition certificate;

Presence in the family status of older siblings not living with the family of origin: it is necessary to submit the residence certificate of the non-cohabiting brother/sister or this should be specified in the certificate of the family composition.

- b) the working activity carried out in 2020 by each family member, including all siblings of legal age. In cases where some members do not carry out any activity, the status of not working or unemployment and the amount of any unemployment benefit or similar received must be specified in the documentation;
- c) the period of performance of the work activity of each member (specifying whether it is a period of less than or more than six months during 2020);
- d) the income amount earned in the year 2020: certification, issued by the public administration competent in fiscal management, attesting the total gross income (taxes included) from work or pension received by each adult member of the family in the calendar year 2020.

Special situations

If you do not have the above-mentioned certificate, you can submit one of the following documents:

- Certificate issued by the employer attesting the salary received in the calendar year 2020 (from January to December) including taxes;
- Last paycheck (December 2020) only if it attests the total income received in the year 2020;
- All 12 monthly payslips attesting the income received in the calendar year 2020, if the total income is not specified in the last paycheck;

e) **Buildings:** certification of all the buildings owned on December 31st 2020 by each family member, attesting the building surface area in square meters.

In particular:

Residential house: if owned: a certificate of ownership, attesting the building surface area, is required.

In all other cases (lease, free use agreement, etc.) it is necessary to attach a specific declaration, issued by the competent authority, attesting that no member of the family unit is owner of properties.

Other buildings: it is necessary to submit the relevant ownership certificates;

f) the amount of any residual mortgage loan in effect at the time December 31st, 2020 on the house and/or on other properties;

g) the assets amount for each individual member of the family unit owned on December 31st, 2020;

h) any document certifying the student's disability or handicap.

All the income/assets local values must be expressed in Euro, on the basis of the average exchange rate of foreign currencies for the year 2020, as provided for by institutional sources.

International students from Non-EU countries, which are "particularly poor", (Table A, General Rules), must provide a certification of the Italian Representation in the country of origin, attesting that the student does not belong to a family, known as to be of high income and high social level.

4.2 Documentation required to International students from European Union countries

International students from one of the countries of the European Union are considered equal to Italian citizens, also with regard to the rules about the simplification of administrative procedures, and therefore can self-certify their income and assets, declaring in the application:

- the composition of the family unit. For the composition of the family, the rules provided for by the ISEE regulations for benefits of the Right to Higher Education (see art.7 General Rules) are valid.
- the total income received abroad in the year 2020: the income is assessed on the basis of permanent parities and expressed in Euro;

Assets owned abroad on 31/12/2020: real estates are considered only as buildings, assessed on the basis of the conventional value of € 500.00 per square meter; assets are evaluated on the basis of permanent parities and expressed in Euro.

In order to get started the necessary checks, according to art. 15 of the General Rules, all students are in any case required to submit, by the deadline specified in paragraph 5, the family status certificate and the documentation concerning the self-certified incomes and assets, translated into Italian and, where necessary, legalized or apostilled in accordance with the current regulations.

4.3 Provisions common to international students from EU and Non-EU countries

International students, whose family unit resides and receives income and/or owns assets in Italy, submit the application in the same way settled for Italian students. In case of mixed income and/or assets (part in Italy and part abroad), income and/or assets abroad must be documented within the deadlines and according to the procedures specified above, in paragraph 4. and following, even if included in the DSU declaration of the ISEE certificate.

International students with dual citizenship must apply choosing one of the two citizenships. In case that one of the two citizenships is Italian, this one prevails.

4.4 International students recognized as stateless or holders of international protection (with residence permit for political asylum or subsidiary protection) or of complementary protection (e.g. special protection and special cases)

Students recognized as **stateless or beneficiaries of international protection** (with residence permit for political asylum or subsidiary protection), or of complementary protection (e.g. special protection and special cases), are exempt from submitting declarations issued by embassies or consulates, since only their eventual income and assets in Italy are taken into consideration to evaluate their economic condition. Therefore their economic situation will be evaluated according to the same procedure provided for Italian students.

These students must submit:

- a) a copy of their valid residence permit
- b) a copy of their passport or identity card, or other valid I.D.
- c) ISEE certificate 2021

Students with a residence permit for asylum application, whose procedure to recognise their status as eligible for international protection is still underway, and do not have their residence permit, must submit the documents listed above at points a), b), c). The eventual benefits awarding depends on the status recognition and on the issuing of the corresponding residence permit.

Students whose procedure to renew their residence permit is still underway and do not have it yet, must submit the documents listed above at points a), b), c). Any benefits awarding depends on the status recognition and on the issuing of the corresponding residence permit.

In case of change of the residence permit, as stated in this article 4.4, into a residence permit with a purpose different from the original one, no more within the scope of international or complementary protection, ER.GO reserves the right to evaluate the economical condition, without implementing the regulations about the family unit to refer to, according to art. 7 of the General Rules.

International students must also submit self-certification of domicile and subsequent documentation within the specified deadlines, to be eligible for the "non resident" or "Commuter" scholarship (with the exception of the students referred to in paragraph 4.4 with their family unit not resident in Italy).

7. Scholarships

The minimum budget available for the A.Y. 2021/2022 is estimated in € 42,000,000, equivalent to at least 12,000 scholarships, that will be assigned for the 75% to students enrolled in subsequent years and for the 25% to freshmen, proportionally to the number of eligible students in each ranking list.

The amount of scholarship goes from a maximum of € 5.397,74 to a minimum of € 1.097,55 and varies according to the economic conditions of the family unit and to the condition of non-resident student, commuter student and resident student.

Students can apply for converting a part of the scholarship into credit for the catering service. In this case, ER.GO will add a 50% extra amount.

Therefore, the scholarship is split into four different amounts, which can be converted into the catering service, corresponding to four different ER.GO grants:

Scholarship amount converted into catering service	ER.GO contribution	Total amount of prepaid credit for the catering service
€ 200	€ 100	€ 300
€ 400	€ 200	€ 600
€ 500	€ 250	€ 750
€ 600	€ 300	€ 900

The amount of the scholarship is defined depending on the ISEE value and whether the student is non-resident (“fuori sede”), resident (“in sede”) or commuter (“pendolare”), as follows:

ISEE value brackets	non-resident Students	Commuters	Resident Students
Up to € 15.333,33	€ 5.397,74	€ 3.038,51	€ 2.195,11
From € 15.333,34 to € 16.866,66	€ 3.778,42	€ 2.126,95	€ 1.536,58
From € 16.866,67 to € 19.152,97	€ 2.860,80	€ 1.762,33	€ 1.342,53
From € 19.152,98 to € 23.000,00	€ 2.698,87	€ 1.519,26	€ 1.097,55

The scholarship for the students enrolled in the “further semester” beyond the Course time span is equal to the 50% of the amounts above.

The scholarship will be paid in three annual instalments: the **first instalment** paid by 31/12/2021 to students, who will be by 16/11/2021 regularly enrolled at University for the A. Y. 2021/2022.

The **second instalment** will be paid in March 2022 to those students, who will have already achieved by 28/02/2022 the number of credits specified in the table no.1 (first year students) and no.5 (not first year students) of the Benefits Announcement.

For students enrolled in subsequent years, the academic achievements, specified in table 5, is met only if students got at least 9 credits after 10/08/2021.

Students, who achieve the number of ECTS specified in Table 1 (freshpeople) and in Table 5 (subsequent years) after February 28th, 2022 will receive the second instalment together with the third instalment, upon having achieved the number of ECTS specified respectively in Table 2 (freshpeople) and in Table 6 (subsequent years).

The **third instalment** will be paid from June 2022 (except August 2022), with monthly payments, to those students **who will have achieved** the credits as noted in tables 2 (for first year students) and 6 (for students enrolled in subsequent years) of the Announcement.

In any case, the payment of the scholarship is suspended if the student’s eligibility is under investigation to verify his/her possession of the requirements.

The amount of the three instalments is different depending on the student, if he/she is first-year or not first-year (of all grades of degrees):

Student	Percentage of the assigned scholarship amount provided with the paid instalment		
	First instalment	Second instalment	Third instalment (balance)
Enrolled at first year	40%	20%	40%
Enrolled at subsequent years	50%	10%	40%

In case of Scholarship + free accommodation + pre-paid catering + Sport at the University Sport Centre (BAPS), the three instalment amount is determined referring to the money sum.

10. Economic requirements

The economic condition of the student is assessed considering ISEE (Index of the Economic Condition) and ISPE (Index of Property Condition), two indexes measured according to the composition of the family, the incomes and assets owned by the family. The regulation in force about ISEE introduces a specific ISEE as regards services connected with the right to higher education. Usually, in case of parents living with the applying student, the ISEE, issued for services connected to the right to university studies, corresponds with the ORDINARY ISEE, in this case, the ISEE certificate (Attestazione) must specify that it is applied to the supporting services of the right to higher education on behalf of the student concerned. In case of particular situations, please see the General Rules of the Announcement for the academic year 2021/2022 and the Guide to ISEE for the academic year 2021/2022.

Independent student

In case of parents not living with the student applying for an ISEE for services connected to the right to higher education, the applying student is member of the parent's family unit, except in case both the following requirements occur.

a) Official residence outside the family home for at least two years before the date of submission of the ISEE certificate, in a housing not belonging to a member of the native family;

b) Earned income or similar of at least € 6.500,00 per year in the last two years, declared by the student in his/her income tax return.

c) If the student is married, or cohabitant under a cohabitation de facto (art. 1 paragraph 36 of Law 76/2016) registered at the city of residence, it will be taken into account the student's new family unit, only if he/she meets the residence requirement (according to letter a) and in case the income requirements (according to letter b) are fully met, also considering the income of the student's spouse or cohabitant under a cohabitation de facto (art. 1 paragraph 36 of Law 76/2016) registered at the city of residence. In this case, to meet the income requirements, the spouse's or cohabitant's income (referred to the two previous years) can be taken into consideration, even if the student at that time was not yet married or cohabitant under a cohabitation de facto (art. 1 paragraph 36 of Law 76/2016) registered at the city of residence.

Rules for spouses are valid also for both parties of same-sex civil union, as provided for by the current regulations (law 20th May 2016, no. 76).

d) Only in case of a student enrolled at PhD courses, the family unit is composed of the student applying for benefits, his/her spouse, under-age children (younger than 18 years old) and adult children, according to the rules provided for by article 3, paragraph 2 and 5, of D.P.C.M. 5 Dec. 2013, no. 159. In this specific case, the ISEE is calculated on the basis of the so called "restricted family unit" and it is provided in a specific section of the ISEE certificate. The applying to benefits student, enrolled at PhD courses, can however reserve the chance to establish a family unit according to the ordinary rules provided for by article 3 of D.P.C.M. 5 Dec. 2013, no. 159. In this case, it is taken into account the "ISEE ORDINARIO" of the ISEE certificate.

In this case the student can be considered as independent student and we will consider only the economic condition of his/her new family unit, and not of his/her native family.

Students not resident with their native family, who do not have both the requirements indicated above, cannot be considered as independent students, but as members of their parents' family unit and must fill in the application form with reference to the ISEE including their native family. To define the student's condition as Resident Student, Non-Resident Student or Commuters, ER.GO will consider the residence of the native family.

BONUS

The bonus is an amount of extra credits that can be used to reach the minimum achievement level required to get the benefits of the year in which the student is going to enrol. It has to be required in the online application form.

It can be used also to confirm the scholarship of the year in which the student is enrolled.

If the bonus is not used, it increases as follows:

- At the end of the first year: 5 credits
- At the end of the second year: 12 credits
- At the end of the third year: 15 credits

If the bonus is used, it is not possible to increase it further . Any remaining bonus credits can be used only over subsequent years .-Any bonus not used during the first level degree course can be used during the second level degree course. The bonus used in previous academic years-can not be counted in subsequent years. If for example a student, enrolling at the second year of a First Cycle Degree or of a Single Cycle Degree and having right to a 5 credits bonus, has achieved 23 credits and uses a 2 credits bonus to reach the required 25 credits, he can use the remaining 3 credits of bonus during the following years. His/her real credits are in any case 23. If, on the contrary, the student uses the bonus for the first time when enrolling at the third year, he/she has right to use 12 credits; if he/she needs only 6 credits, he/she can use the remaining 6 credits during the following years of study.

There are special criteria to evaluate academic achievement in case of:

- Qualifications for educational activities after abandonment or forfeiture of studies, or by attending single or master courses.
- Qualifications for educational activities/exams for international students who have attended study periods abroad;

17. Hardship Awards

ER.GO provides hardship awards for students who lose their achievement requirements due to a particularly and exceptional serious event and who are particularly economically disadvantaged, in order to allow them to return into the system of benefits the following year or to gain their qualification.

Hardship awards are:

> Grants from a minimum of € 250.00 to a maximum of € 2,000.00.

> Lodging with fee according to the ranking lists (only for students already assigned in the academic year 2020/2021).

The grants are meant only for students eligible/assignee with a scholarship in the academic year 2020/2021.

Hardship awards are granted only once, and they are incompatible one another. Hardship awards are also incompatible with money grants, with the same purposes, given by Universities in the A.Y. 2020/2021. In some cases, there can be grants integrated with Universities.

The application, both for extraordinary assignment of accommodation and for extra grant, must be exclusively submitted on line, on the website www.er-go.it, entering the DOSSIER UTENTE, and choosing from the menu MODULISTICA the form: "Modulo interventi straordinari".

The hardship awards are assigned after evaluation of the produced documentation and taking into account the academic achievements; it's up to ER.GO asking for an informal interview in order to define better the student's situation. The benefit is assigned according to the incontestable discretion of ER.GO.

Er.Go reserves itself the right to take into consideration particular request of loan made by female students regularly enrolled at the University, who are mothers with a child under the age of one, exclusively if the student's family unit is composed only by the student and her child, in the absence of a parental support.
